

# Usha Martin World School, Patna among “One of the Top Boarding Schools in India” by Education today.co

## SCHOOL CAMPUS

A school is a place where the children spend approximately half of their childhood; and inside the school building, children grow the maximum and open their mind to the world. It is during the formative school years that the children gain vital leadership, communication and problem solving skills which empower them to succeed in the future.

Usha Martin World School Patna's state-of-the-art facilities nurture holistic development of students. Apart from quality academic focus, we believe that building the confidence of a child right from the beginning is essential.

Realizing the potentials of the robotics field, UMWS Patna has included robotics in its curriculum. The robotics program facilitates teamwork, critical thinking, problem solving ability and applying science and mathematics in real life situations.

UMWS Patna's Language Lab is designed to help Indian students develop their English skills in an Indian context. English communication lies at the core of our approach. We ensure that our children are given a wide range of tools and practices to sharpen their command over the language. Classroom teaching forms the bedrock. Then we let our children tap into the internationally acclaimed resource of the Young Learner's English programme managed by the Cambridge University Press.

We are proud to be chosen as an Assessment Centre for the YLE courses.

With a view to accomplish excellence in academics, UMWS Patna conducts Academic Audits every year, with the purpose to test the 'Real Learning' and the HOTS (Higher Order Thinking Skills) of the children.

UMWS also focuses on sporting activities. Under the management of professional coaches of either gender, our children engage in various disciplines like billiards, archery, boxing, volleyball, football, basketball, cricket, tennis, table tennis, swimming, martial arts, athletics, yoga, kabaddi, kho-kho and more.

The Hostel at UMWS Patna is completely air-conditioned. International quality furniture and beds keep the children safe and comfortable. Spacious rooms, clean rest room facilities with hot water in winter, filtered drinking water processed by a large capacity RO plant, special coaching classes for after school learning practice.

The cafeteria is air-conditioned and pest controlled, and serves the best food prepared and served by a team of experts with a background of hotel management training. The menu is designed and approved by dieticians.

## NEW AGE LEARNING AND THE PANDEMIC

After being hit by the pandemic, almost every aspect of our living is undergoing a metamorphosis.

The domain of teaching and learning is surely having its share of changes. Digital teaching is replacing the blackboard, home assignments are being submitted online, lessons are shared on virtual platforms, and so on. Usha Martin World School Patna and its students are keeping pace with all these developments thrust upon forcefully to adopt by the pandemic.

Our Lesson Plans are linked to web resources; we have school management software that statistically analyzes every bit of data to help us fine tune the approach. Dedicated IT & academic support teams work to conduct research on the latest trends of pedagogy and incorporate best strategies so that the child stays ahead.
